**Critical Static Level
Only one well out of
four able to pump.**

Average November 1st Static Water Level - 56.8 Feet

Static Water Level, November 1, 2016 -92.8Feet

Definitions

Static Level: is the level of water in the well when no water is being taken (pumped) from the well.

Pumping Level: is the level of water in the well during pumping.

Critical Satic Level: is the level where many of our wells can no longer pump water and we must use much more water from Lake Casitas.

ALWAYS CONSERVE WATER!
